AGREA implements community- and organization-based programs supported by hands-on training, workshops, and livelihood that aims to address Zero Waste, Zero Hunger, and Zero Insufficiency.

**ZERO WASTE**
The environment is front and foremost in all strategies and practices

**ZERO HUNGER**
We believe in the potential of the human spirit through a thinking heart

**ZERO INSUFFICIENCY**
An economic development system based on overall happiness
SIARGAO

Major agricultural commodities are imported
(PhilRice: 91% imported rice and 60% vegetable importation)

WHAT IS IMPACT FOR US?
DOING GOOD MEANS GOOD BUSINESS SENSE

People. Planet. Profit/Progress (3Ps)

- Socially impactful
- Environmentally sound
- Great business returns
- Replicable model
- Effect policy-making
Through agriculture, farmers can be a starting point for change
AGREA’s empowering agribusiness model and holistic programming are designed based on the Ecology of Dignity - a human-centered approach to building farmers’ agency as important actors within the supply chain, as well as developing farmers’ potentials as changemakers. Through education, access to technology, and community empowerment activities, farmers can have a fairer business share, more autonomy, and a better quality of life.
Insert AGREA mantra of “Farming is cool, smart, sexy, and humane”

• More people are needed to be engaged in agriculture
• Education as a sustainable development multiplier – thus the Farm School
SUSTAINABLE AGRICULTURE

Ecological, economical and organic ways of farming and fishing

LIVELIHOOD THROUGH ENTREPRENEURSHIP

Provide technical and business skills with values formation and financial literacy
CLIMATE-RESILIENT FARMING APPROACH

Coconut + turmeric and ginger intercropping
VALUE-ADDITION OF AGRICULTURE PRODUCTS
Agrea Farm School logo and tagline
Always growing, always discovering.
AGE GROUP: MORE YOUTH IN AGRI
Filipino youth aged 18-25 years old comprise the majority of enrollees at the AGREA Farm School and took 232 Hours of hands-on technical-vocational competency training in Organic Agriculture Production NCII.
Experiences and approaches to increase productivity and income
