SESSION 1. Managing Climate Uncertainties and Water Scarcity

Engr. Samuel M. Contreras – Panelist

Engr. Samuel M. Contreras is a Registered Professional Agricultural Engineer. A Research Fellow of the Japan International Research Center for Agricultural Sciences (JIRCAS) in 2002-2003, he finished his Master of Applied Science in Natural Resources Engineering at Lincoln University, New Zealand in 1999. He was involved in several projects related to soil and water management as a Team Leader and has co-authored several technical papers in the same field.

Engr. Contreras is the Head of the Soil Conservation and Management Division, Bureau of Soils and Water Management. He also serves as the Science and Technology Correspondent to the United Nations Convention to Combat Desertification (UNCCD) and is involved in the formulation of the UNCCD's Future Strategic Framework (FSF) as the Southeast Asia sub-regional representative to the Intergovernmental Working Group (IWG) developing the FSF. He is likewise an active member of the World Overview of Conservation Approaches and Technologies (WOCAT), a global network of sustainable land management (SLM) specialists. In this capacity, he spearheaded the documentation of SLM practices in the Philippines using WOCAT tools and methodologies. In 2017, he was appointed as the Chair of the Committee for the Review of the Implementation of the Convention (CRIC) of the UNCCD for biennium 2018-2019.
